Doors for Historic Homes

Highlight Entry Doors

Your front door is the final touch put on a home, but it becomes the home's first impression.

The right door will have a huge impact on the look and feel of your home.

Customizations

Door Colors

Endless customizations that fit you.

From any color imaginable to designer hardware and shapes that fit your style and dream home, United has it handled.

Our suppliers provide an array of design options to customize your windows and doors, reflecting your unique home's architecture, character, and personality.

Case Study

Door Replacement in Quincy, Mass.

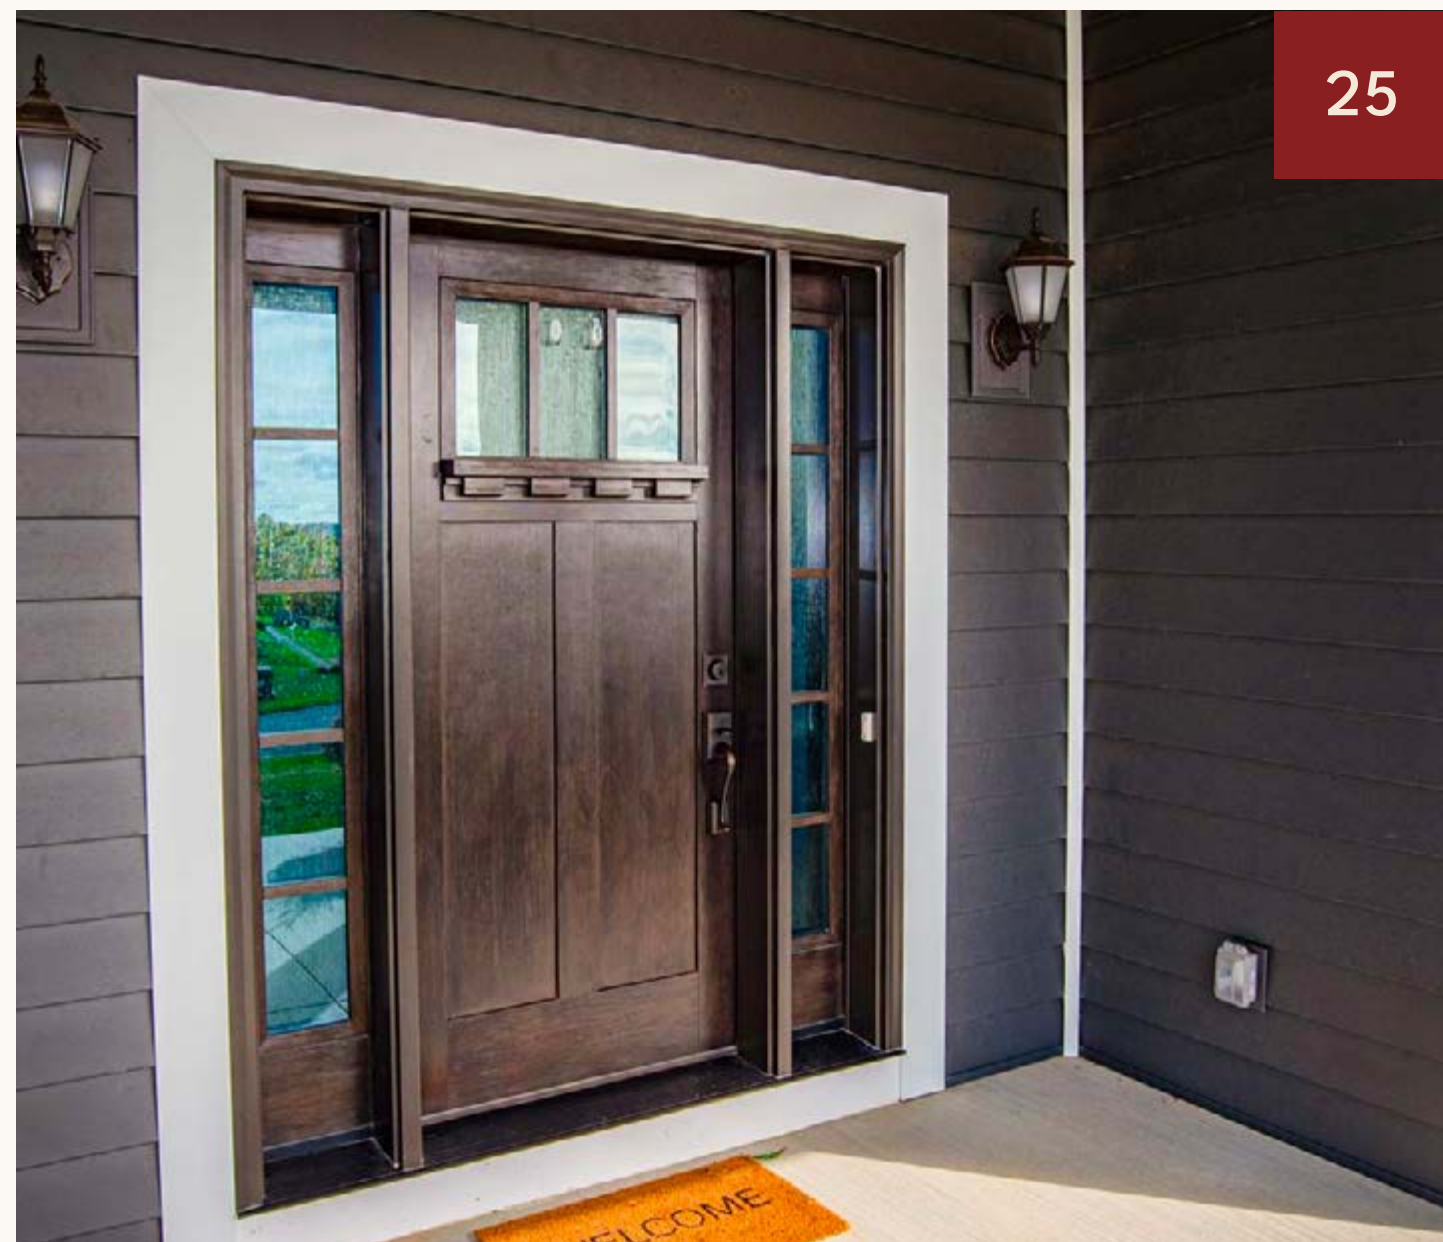

This now stunning colonial underwent one of the biggest transformations of the year. United Home Experts replaced the siding, windows, and doors in this home. Though the house may appear humble in nature, these homeowners were going for the gold standard in remodeling and chose a Provia Signet fiberglass entry door in Mountain Berry to complete the look.

Materials

Fiberglass Doors

Fiberglass doors capture the authentic look and feel of woodgrain combined with the weatherability, longevity, and maintenance-free benefits of durable fiberglass.

Materials

Steel Doors

Not only do these steel exterior doors provide security, long-term durability and energy efficiency, they also enhance the curb appeal of your home, with many beautiful door styles and options for an attractive woodgrain texture or smooth steel in various stains and paint colors.

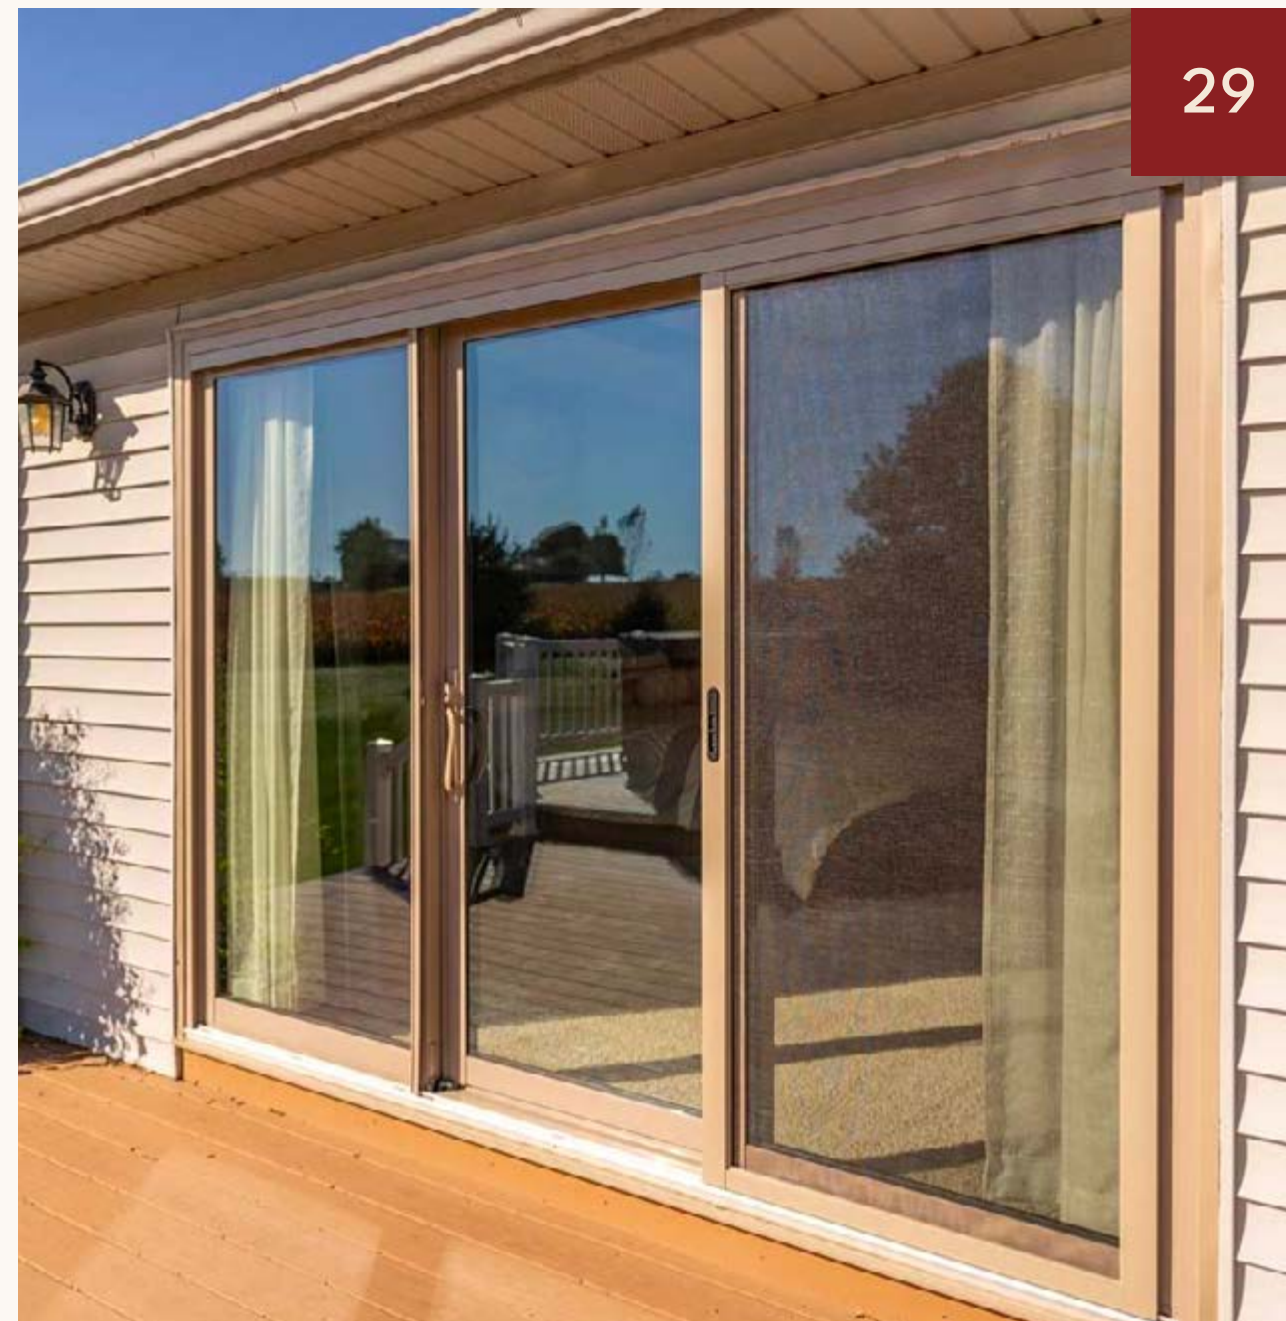

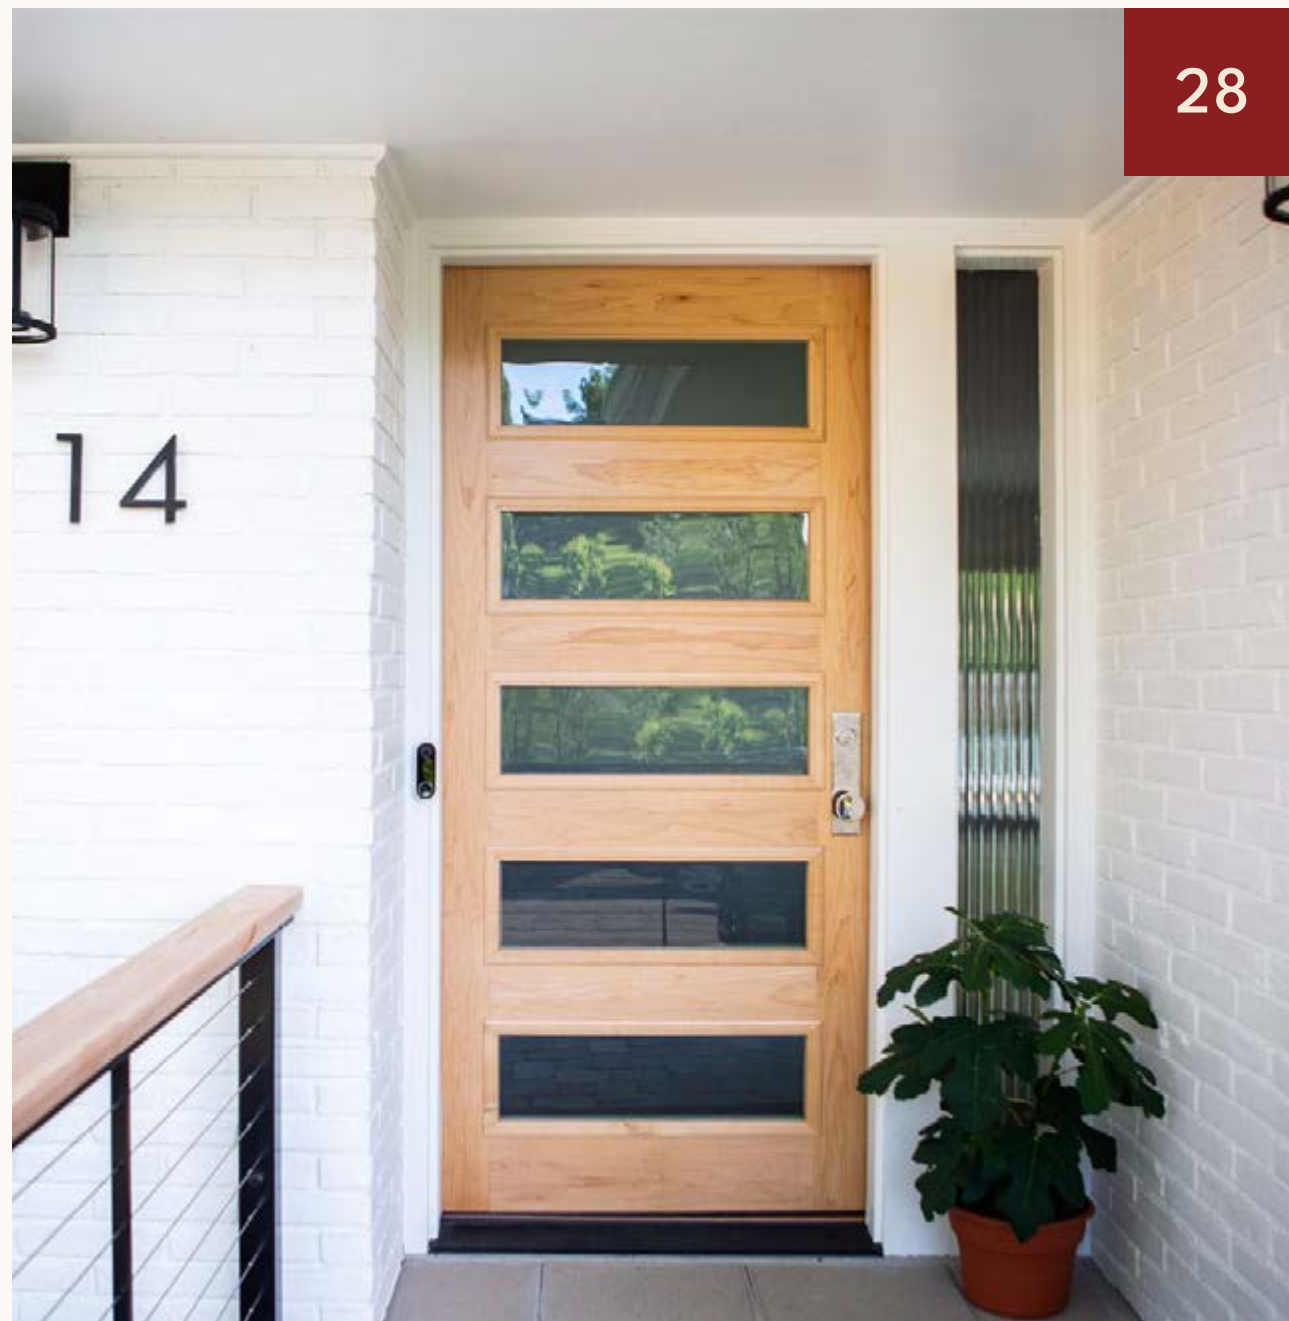

Steel front doors provide the security, durability and energy efficiency you want for your home with customizations that complement your home's design.

Materials

Wood Doors

Wood doors are a traditional choice and offer good insulation, but they require regular maintenance and are prone to warping, rotting, and moisture damage.

Brands

Most Popular Door Brands

There are many quality door manufacturers, but our caution is to evaluate each brand because quality varies with pricing and product. We can walk through the best recommendations with tailored estimates with different door brands and pricing.

Considerations

Energy Efficiency

Energy-efficient doors can help to reduce your energy bills, improve indoor comfort, and increase the overall value of your home. By preventing air from escaping your home, energy-efficient doors can help to maintain a consistent temperature and reduce the amount of energy needed to heat and cool your home. Additionally, energy-efficient doors are better equipped to block out outside noise, which can help to improve indoor peace and quiet.

Considerations

Built for New England

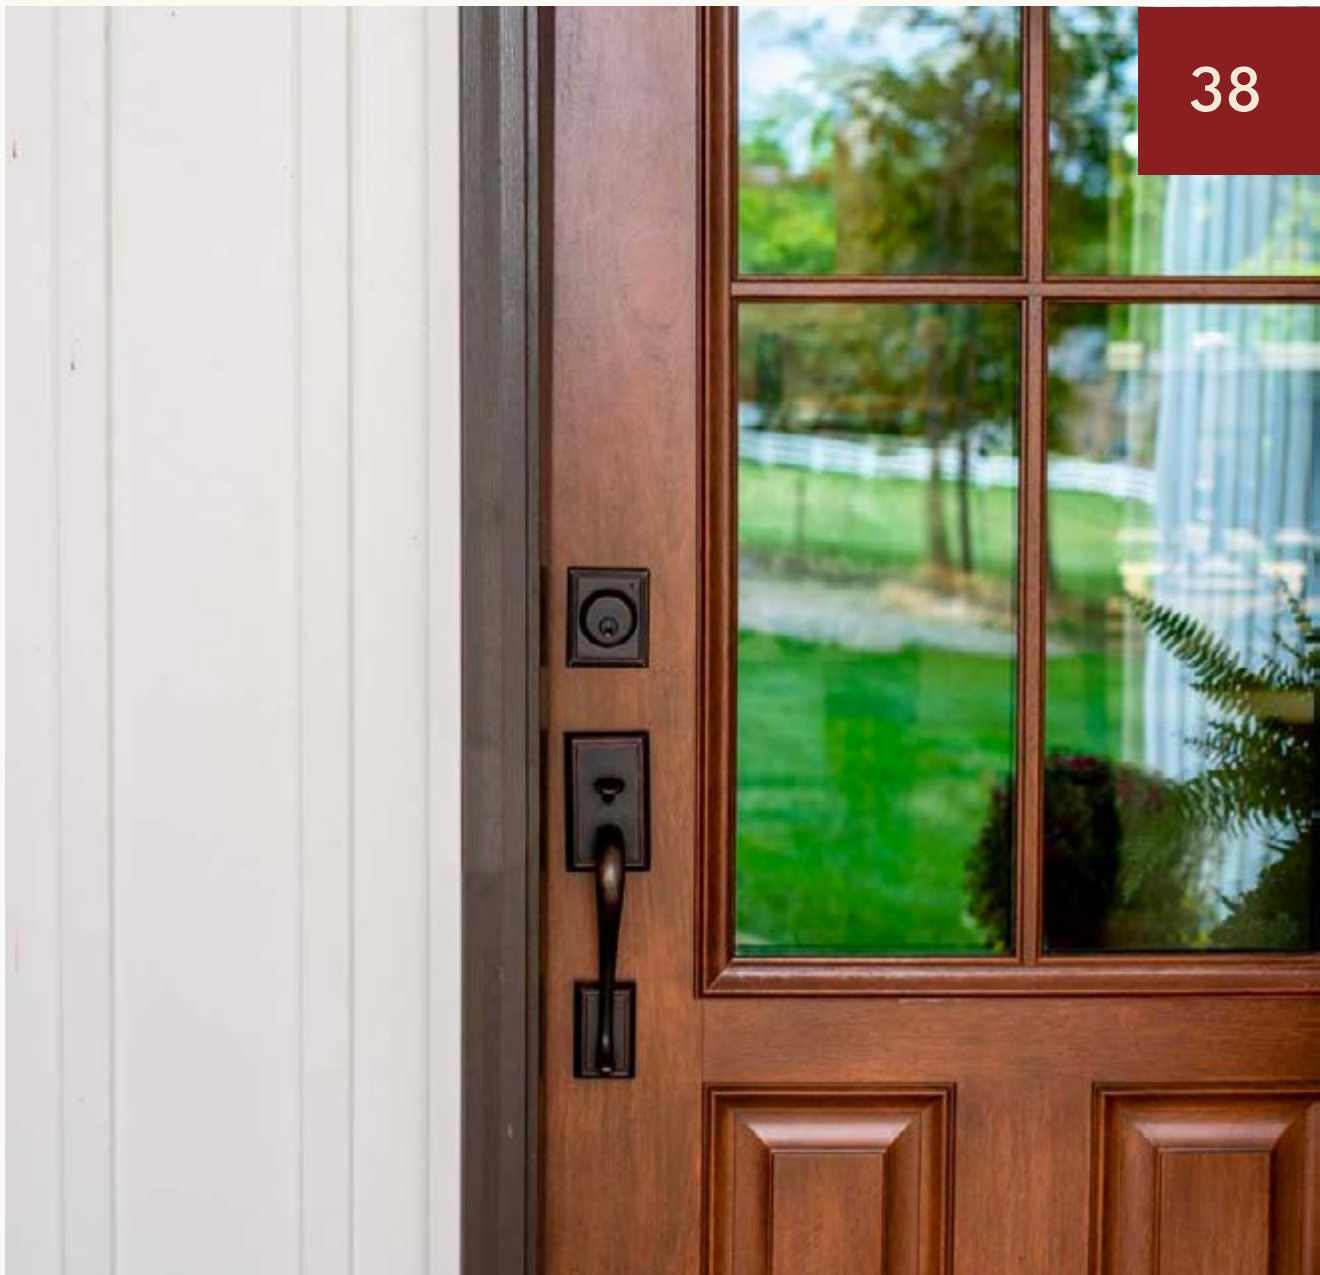

33

Doors That Weather Storms

Designed for incomparable performance and stunning aesthetics, United offers door options for every style of home. Fiberglass doors are a popular choice for their energy efficiency and durability. They are resistant to warping, rotting, and moisture damage, making them a great choice for New England's harsh climate.

Testimonials

United Home Experts has served New England for more than a decade, becoming one of the most respected and trusted door installers in the area. We believe that a great team delivers a great experience. Here's what some of our customers had to say:

“Hardworking, neat, and polite. The biggest quality is that they are competent; not just the foreman, but every person in the crew! We don't see that much these days. The attention to detail and the amount of prep work done was outstanding. Thanks!!

– **Amy & Al T.** Holden, MA

“Everyone was very hardworking. I was very satisfied with the final project. Any little question or request was taken care of right away.

– **Cheryl F.** Abington, MA

“I was given an accurate estimate at the start of the project and a reasonable price for additional work that was needed. An extremely hardworking crew did a great job residing our antique cape despite the heat, humidity, and rain. A great job overall!!!!

– **Leonard D.** Rutland, MA

“Your men were unfailingly polite. There were a few minor wrinkles, as to be expected. They were always pounced upon and corrected perfectly. We would, and will, recommend both the product and your enterprise to all who will listen.

– **Jim & Laurel G.** Jamestown RI
